

The latest news on what's powering our neighborhoods

Save on home heating using your PSE online account

With winter's cold weather, there's no better time to view the details on your home's energy use and discover ways for saving. Here's how a free online PSE account can help:

- Energy insights. Learn about the energy you use, the impact weather plays and get insights needed for creating a plan to save on your bill.
- Outage notifications. Stay informed by receiving proactive email or text notices when the power goes out.
- Payment options. Set your preferences for payment and bill handling to match your needs.

If you don't have a PSE online account, simply go to pse.com and click "create account." If you already have an account and want to receive outage notifications, just sign in to verify we have your most recent contact information.

Difficulty paying your bill?

If you're having difficulty paying your PSE bill, consider setting up payment arrangements, for smaller, multiple payments over time. This can help you better manage your energy costs and keep your PSE account in good standing. Visit pse.com and sign into your PSE online account or call us for more information.

Help people in need

Consider donating to The Salvation Army Warm Home Fund, which provides short-term, emergency bill payment assistance to PSE customers facing financial difficulties. To donate, include a little extra in your next PSE bill payment and specify the donation amount on your payment stub or when you pay online.

We maintain our pipelines; you maintain yours

Some buried natural gas piping, such as piping to pools, hot tubs, barbecues and detached buildings, is owned by customers. PSE owns and regularly inspects the pipeline up to your gas meter, but maintaining buried lines on the customer's side of the meter is usually the customer's responsibility. If your piping is not maintained, it may leak or corrode. Have a licensed plumbing contractor do the inspection and any needed repairs.
