

## Additional rebates from PSE

[pse.com/rebates](https://pse.com/rebates)

- Commercial Foodservice Equipment
- Custom Grants for Complex Commercial Projects
- Residential Windows
- Residential Water Heater
- Home Heating Equipment
- Residential Insulation

## Renewables

PSE has four voluntary programs designed to keep sustainability within easy reach. Each program offers a simple way to reduce the carbon footprint of your home or business while making use of the Pacific Northwest's abundant clean-power resources.

[pse.com/renewables](https://pse.com/renewables)

- Solar Choice
- Carbon Balance
- Green Power
- Customer Connected Solar

## Generating your own power

By producing your own renewable energy you can lower your electric costs and reduce your carbon footprint.

[pse.com/netmetering](https://pse.com/netmetering)

## Federal assistance

The United States Department of Agriculture (USDA) provides guaranteed loan financing and grant funding to agricultural producers and rural small businesses to purchase or install renewable energy systems or make energy efficiency improvements. Contact us at [smallbusiness@pse.com](mailto:smallbusiness@pse.com) to get connected with your local USDA team.

# How to grow your farm's energy efficiency

[pse.com/agdi](https://pse.com/agdi)

 PUGET SOUND ENERGY

## Take these energy-saving actions and save

- Replace inefficient lighting with efficient LED lighting
- Add occupancy sensors to areas with limited traffic
- Install light switches to replace control-by-breaker
- Flush water heaters annually
- Insulate hot water pipes
- Regularly adjust belt drives and replace worn belts
- Add photocells to exterior lights
- Clean fixtures to maintain light levels
- Keep refrigeration coils clean
- Reduce hot water temperature to 120°F
- Fix compressed air leaks
- Replace broken gaskets
- When equipment breaks, call PSE at **1-800-562-1482** about incentives for purchasing the most efficient replacements (M-F from 8 a.m. – 5 p.m)

## Residential rebates

The more energy efficient your home becomes, the lower your bills are. PSE offers rebates to existing single family properties.

### What you get:

- Home Heating
- Water Heating
- Windows
- Lighting
- Insulation
- Smart Thermostat
- Water-conserving kitchen and bathroom aerators (up to 4 per qualifying home)

## Agriculture energy assessment

For small to medium sized farms where the home and farm buildings may have separate meters, have multiple outbuildings, refrigeration facilities, and/or commercial kitchen or processing facilities.

### What you get:

- A free energy assessment and energy savings report
- Installation of no-cost and low-cost LED lighting, HVAC controls, and water saving products
- Recommendations on future energy efficiency upgrade opportunities, if eligible
- Contractor referrals for future energy efficiency upgrades or equipment installation
- Reduced energy use and savings on your bill
- Access to custom grants that can help with the cost of complex upgrades
