

Puget Sound Energy is doing work in your neighborhood

PSE employee Tom Ramberg

- We are inspecting retired natural gas services in your neighborhood to confirm they were properly deactivated, as well as evaluating active above ground services to help ensure they are not susceptible to damage such as tampering or vandalism.
- Your neighborhood is part of a system-wide inspection program.
- If an active gas service is found that should have been previously decommissioned, it will be fixed promptly.

Our commitment

- Safe operation of the natural gas system serving our communities.
- Confirming the integrity of deactivated natural gas services through a comprehensive identification, inspection and remediation program.

For more information, visit our webpage at pse.com/deactivatedgaslines or contact deactivatedgaslines@pse.com or 1-888-404-8773.
